We will work across University departments to build capacity and share best practice on sustainable change.

We will equip all our staff with sustainability skills.

We will develop external links to enhance knowledge and capacity.

We will support and promote research that examines the issues relating to sustainability.

We will integrate sustainability into learning programmes and ensure all our students understand the importance of sustainability.

We will support and promote research that examines the issues relating to sustainability.

We will integrate sustainability into learning programmes and ensure all our students understand the importance of sustainability.

As a university, building the knowledge and capacity of our students and staff, as well as with the city and wider society, is key to how we help build a sustainable society. Through teaching, research, facilities, partnerships and volunteering we have both local and global impact, and we develop, share and promote sustainability across our campus, city and beyond.
